How good is your metadata?

Find a member

Search by member

[Learn more](#)

Richer metadata makes content useful.
Make sure your work can be found.

Benefits for Members

- Easily find out what metadata they register
- Compare with others in their field or region
- See how they can improve and be the best that they can be

Benefits for the Public

- See what metadata members register
- See their progress over time
- Understand the quality of members' metadata and find out what needs to be improved

The image shows a screenshot of a CrossMark notification window. The window has a red border and a white background. At the top, it says 'CrossMark' with a close button (X). The main content is a red box with a white background containing a large red 'X' and the word 'Retraction' in bold. Below this, it says 'Retraction dated 2016-03-04'. There is a link to view the retraction: 'Click to view Retraction: https://doi.org/10.1371/JOURNAL.PONE.0151865'. Below the red box, there is text about the article: 'Biomechanical Characteristics of Hand Coordination in Grasping Activities of Daily Living', 'Crossref DOI link: https://doi.org/10.1371/JOURNAL.PONE.0146193', 'Published:', and 'Update policy: https://doi.org/10.1371/JOURNAL.PONE.CORRECTIONS_POLICY'. At the bottom, there is a link to '› Authors'.

Where is the full text?

What can I do with it?

Is it in the iThenticate database?

Member participation

[Home](#) > [Member participation](#)

[Participation reports](#) give—for the first time—a clear picture for anyone to see the metadata Crossref has. This is data that's long been available via our [Public REST API](#), now visualized.

It's an opportunity to evaluate and educate. See for yourself where the gaps are, and what our members could improve upon. Understand best practice through seeing what others are doing, and learn how to level-up.

We're looking for suggestions and feedback during this beta. How will you apply these reports and what else would be helpful? [Let us know](#), if you still have questions after reading the information below, visit our [FAQ page](#).

How it works

There's a separate Participation Report for each member. Visit www.crossref.org/members/prep and start typing in the name of a member. A list of member names will appear for you to select from. Behind the scenes our REST API will pull together a report and output it in a clear, visual way.

The report shows what percentage of content has 10 key metadata elements registered. These key elements add context and richness, and help to open up content to easier discovery and wider and more varied use.

This page describes the what, why, where, and how, for each of the ten current checks:

www.crossref.org/participation
<https://www.crossref.org/members/prep/>

Crossref metadata helps research
to be found, cited, linked-to,
assessed, and re-used

ability to find, cite, and link
to content quickly and easily

Thank you!
